- * Some great evening events are being planned
- * Sign up early . . . Only room for 40 participants
- * Area lodging available at attractive rates

While the posting of Luther's 95 Theses is usually cited as the beginning of the Reformation, it was really Luther's monumental Heidelberg Disputation of 1518 that sketched out the contours of his Theology of the Cross. With a sharp distinction between Law and Gospel this theology defines the shape and texture of how God deals with us in the walk of Faith in the Church and World. Come and see how it applies to the you and the Church today.

This course is designed for the thinking Christian who is looking for clarity and greater understanding on how God reveals Himself and deals with sinners. If you are looking for real substance on the walk of faith with great discussions with like-minded Lutheran Christians, this is a course you just cannot pass up. Join us!

Sign up, do the readings before our class and get ready for some great discussions and applications with a seasoned instructor in the Lutheran Church.

In the evenings, kick back and enjoy a great wild west town and area.
